

The Easter O-Training package has been created by Halden SK in order to offer its club members and other orienteers who want to join a high quality training offer during the Easter. Please, follow the instructions and do a proper use of the files.

Guidelines:

1. You can **download and print** the maps by yourself and run the course you wish.
2. There is **Livelox** event linked to each training, so you can submit your route and compare with others.
3. Please, be **especially careful when parking your car**, and use always the spot marked in the maps and the coordinates. Park wisely and take care that you are not blocking any private property or road.
4. **Don't touch the markings** in the terrain, just stay 1-2 metres away.
5. Please, if you notice any **missing marking**, we would appreciate if you can report it to raul@haldensk.no so that we can fix it.
6. If you are not a HaldenSK member, the price for every training is **60NOK** which will be paid by **Vipps #99224**.
7. Have fun!
